

# Technical Datasheet

<b>Analysis Name:</b>	Detection of <i>Listeria monocytogenes</i> .
<b>Method Number</b>	LIBR 085
<b>Scope of Application:</b>	Products intended for human consumption and for the feeding of animals, environmental samples in the area of food production and food handling.
<b>Description:</b>	This is a cultural confirmation method used to culture, isolate, and speciate <i>Listeria</i> from presumptive samples. Presumptive broths or isolates are cultured on selective/differential agar media, and typical <i>Listeria</i> is isolated for biochemical testing.
<b>Sample Weight Required:</b>	25 g.
<b>Method Reference:</b>	ISO-11290-1:2017
<b>Analytical Platform:</b>	Cultural Method.
